## Mosaic Celebrates Its Fifth Anniversary by Providing 1 Million Meals Worldwide

The Mosaic Company and its 7,500 worldwide employees celebrated its fifth anniversary by donating more than 1 million meals to organizations around the world that help alleviate hunger. Mosaic employees collected more than 25,000 pounds of nonperishable food items, and the company made financial contributions of more than \$250,000. Mosaic's donations will provide meals to organizations in Argentina, Brazil, Canada, Chile, China, India and the United States. In Florida, \$60,000 was donated to help support hunger relief agencies across the 10-county operating area served by Feeding America Tampa Bay.

"Over the past five years, Mosaic has consistently delivered on its mission of helping the world grow the food it needs, and this mission will drive us for years well into the future," said Jim Prokopanko, Mosaic's president and chief executive officer. "As we commemorate our fifth anniversary, this donation of 1 million meals is a tangible and significant way to give back to our global communities."

According to a recent survey by Feeding America, the global financial crisis has had a profound impact on the number of individuals needing emergency food assistance. The average increase in demand across the Feeding America network from summer 2008 to summer 2009 was 30 percent, and 99 percent

of all food banks have reported an increase in demand over the last year.

Oct. 25, 2009 marked the fifth anniversary of Mosaic shares trading publicly on the New York Stock Exchange. In five years, Mosaic has emerged as one of the world's leading producers and marketers of concentrated phosphate and potash, two of the primary nutrients required to grow the food the world needs. The company's customer base includes wholesalers, retail dealers and individual growers in more than 40 countries.

## Mosaic Works with Myakka Community

## on Beautification Project

Approximately 30 volunteers from the Myakka community, Manatee County Parks Department, and Mosaic worked together on a beautification project at the Myakka Community Center. Volunteers planted various Florida native plants at the park site.

## Mosaic Supports New Online Magazine

Mosaic is proud to be among the Founding Partners for [83 Degrees](#), a new weekly online magazine about the New Economy in the greater Tampa Bay region. 83 Degrees tells the stories of the people, companies, industries, ideas and investments that are moving Florida forward. Each week 83 Degrees will feature two or three stories about the region's emerging economy and the latest in development, innovation and job growth news across the region.
