

SECTION 1		PRODUCT AND COMPANY INFORMATION			
TRADE NAME:		MicroEssentials S15			
CHEMICAL NAME:		Monoammonium Phosphate with Sulfur			
CAS NUMBER:		MAP: 7722-76-1 Sulfur: various			
CHEMICAL FAMILY:		Ammonium Phosphates- Inorganic Salts			
SYNONYMS:		Monoammonium Phosphate + Sulfur Monobasic Ammonium Phosphate + Sulfur Ammonium Dihydrogen Phosphate + Sulfur Sulfur MAP 13-33-0-15 MES15 MAP + S Ammonium dihydrogen orthophosphate			
PRIMARY USE:		Crop nutrient to be applied as intact granule			
COMPANY INFORMATION:		<p><b>The Mosaic Company</b>  Atria Corporate Center  3033 Campus Drive, Suite E490  Plymouth, MN 55441USA  <a href="http://www.mosaicco.com">www.mosaicco.com</a>  For non-emergency questions, phone hours are 8 AM to 5 PM Central Time US  800.918.8270 (toll free)  763.577.2700 (phone)</p>			
EMERGENCY TELEPHONE:		<p><b>EMERGENCY OVERVIEW</b>  <b>24 Hour Emergency Telephone Number</b>  <b>For Chemical Emergencies:</b>  <b>Spill, Leak, Fire or Accident</b>  <b>Call CHEMTREC</b>  <b>North America: (800) 424-9300</b>  <b>Others: (703) 527-3887 (collect)</b></p>			
SECTION 2		HAZARD IDENTIFICATION			
EMERGENCY OVERVIEW :		Health Hazards:		Avoid contact with eyes, skin and clothing. Avoid ingestion. Wash thoroughly after handling. Also refer to Sections 11, and 15.	
		Physical Hazards:		Slippery when wet.	
		Physical Form:		Solid	
		Appearance:		Grey, tan, brown, or black granules	
		Odor:		Slight ammonia odor	
		Toxicity:		Non-toxic	
		<b>NFPA HAZARD CLASS</b>		<b>HMIS HAZARD CLASS</b>	
		Health: 2		Health: 2	
		Flammability: 0		Flammability: 0	
		Instability: 0		Physical Hazard: 0	
		Special Hazard: None		PPE: Section 8	
				<b>WHMIS HAZARD CLASS</b>	
				Symbol	N/A
				Classification	Not WHMIS controlled
				Sub Class (N/A)	

Status: Revised  
Section(s) Revised: All  
Revision Date: 01/23/2013

Issue Date: 12/22/2009  
MSDS #: MOS-100036.01

POTENTIAL HEALTH EFFECTS:	<b>Eye:</b>	Contact may cause eye irritation including stinging, watering and redness.
	<b>Skin:</b>	Contact may cause mild irritation including redness and a burning sensation. No harmful effects from skin absorption have been reported.
	<b>Inhalation (Breathing):</b>	Effects of overexposure to dusts can include irritation of the eyes and respiratory tract, pneumoconiosis (dust congested lungs) pneumonitis (lung inflammation), coughing, vomiting, diarrhea, abdominal pain. Contact with particulate matter may cause irritation of the nose and throat, coughing and shortness of breath including a burning sensation.
	<b>Ingestion (Swallowing)</b>	Moderate degree of toxicity by ingestion, however ingestion is NOT an intended use.
	<b>Signs and Symptoms:</b>	Effects of overexposure may include irritation of the nose, throat and digestive tract, nausea, vomiting, diarrhea, headache, runny nose, coughing, shortness of breath, abdominal cramping and chest pain.
	<b>Cancer:</b>	Data not available.
	<b>Target Organs:</b>	Data not available.
	<b>Developmental:</b>	Inadequate data available.
	<b>Other Comments:</b>	<p>These comments relate to minor ingredients or impurities that are present and bound within finished product granules. Overexposure to these minor components during proper handling and use are not expected.</p> <p>Allergic skin responses after repeated contact with sulfur, a component, have been reported but are not common.</p> <p>Prolonged or repeated overexposure to fluoride compounds may cause fluorosis. Fluorosis is characterized by skeletal changes, consisting of osteosclerosis (hardening or abnormal density of bone) and osteomalacia (softening of bones) and by mottled discoloration of the enamel of teeth (if exposure occurs during enamel formation). Symptoms may include bone and joint pain and limited range of motion.</p>
	<b>Pre-Existing Medical Conditions:</b>	Skin and Respiratory (asthma-like) disorders.
POTENTIAL ENVIRONMENTAL EFFECTS:	<p>MicroEssentials S15 is considered biodegradable and is taken up as a nutrient by vegetation. Large spills can harm or kill vegetation or organisms. Introduction into fresh or near coastal waters may release ammonium ions that are toxic to fresh water fish, and/or may release phosphates which can result in algae growth, increased turbidity and depleted oxygen.</p>	

SECTION 3		COMPOSITION INFORMATION ON INGREDIENTS	
COMPOSITION:	Phosphate as P <sub>2</sub> O <sub>5</sub>	Primary nutrient ingredient	33%
	Nitrogen as N	Primary nutrient ingredient	13%
	Water	Trace as moisture	0.5 – 2%
	Sulfur as S	Secondary nutrient ingredient	7.5%
	Sulfate as S	Secondary nutrient ingredient	7.5%
	Fluorides as F	Impurity	2-4%
SECTION 4		FIRST AID MEASURES	
FIRST AID PROCEDURES:	Eyes:	Move victim away from exposure and into fresh air. Flush eyes with plenty of clean water for at least 15 minutes. If symptoms persist, seek medical attention.	
	Skin:	Wash contaminated area thoroughly with mild soap and water. If chemical or solution soaks through clothing, remove clothing and wash contaminated skin. If irritation develops and persists after washing, seek medical attention.	
	Inhaled:	If respiratory symptoms develop (see Signs and Symptoms, Section 2), move victim away from source of exposure and into fresh air. If symptoms persist, seek medical attention.	
	Ingestion:	If exposed individual is conscious, immediately give water or milk. Do not induce vomiting. Seek medical attention. If person is unconscious, do not give anything by mouth.	
NOTE TO PHYSICIAN:	If individual has been exposed to concentrated decomposition products (see Section 10), treat symptomatically and watch for delayed symptoms of pulmonary edema.		
SECTION 5		FIRE FIGHTING MEASURES	
FLAMMABLE PROPERTIES:	Flash Point:	Not applicable	
	OSHA Flammability Class:	Not applicable	
	LEL/UEL:	LEL: Not explosible (at product concentration) UEL: Not explosible (at product concentration)	
	Auto-Ignition Temperature:	Not applicable	
EXTINGUISHING MEDIA:	Use extinguishing agent suitable for type of surrounding fire. Avoid use of excessive quantities of water to minimize runoff to environment (see Section 2). <u>Small fires</u> : water spray, foam, dry chemical or CO <sub>2</sub> – collect or direct water to containment <u>Large fires</u> : water spray, fog or foam – collect or direct water to containment		
PROTECTION OF FIREFIGHTERS:	Positive pressure, Self-Contained Breathing Apparatus (SCBA) is required for all fire-fighting activities involving hazardous materials. Section 10 notes decomposition products that may evolve.		

SECTION 6		ACCIDENTAL RELEASE MEASURES
RESPONSE TECHNIQUES:	Stay upwind and away from product spill that may generate a dust hazard. Wear appropriate protective equipment, including respiratory protection, as conditions warrant (see Section 8). Prevent spilled material from entering sewers, storm drains, other drainage systems, and natural waterways. Notify appropriate federal, state/provincial and local agencies as may be required (see Section 15.) Sweep up and package appropriately for use as intended or disposal; minimize dust generation during cleanup.	
RELEASE NOTES :	If spill could potentially enter any waterway, including intermittent dry creeks, contact the local authorities. If in the United States, contact the US COAST GUARD NATIONAL RESPONSE CENTER toll-free number 800-424-8802. In case of accident or road/rail spill notify: CHEMTREC in North America at 800-424-9300 and from other countries (collect) at 0-703-527-3887. (See Section 1)	
SECTION 7		HANDLING AND STORAGE
HANDLING:	<p>This product is intended for use intact - as produced and shipped by Mosaic.</p> <p>The use of appropriate respiratory protection is advised when airborne concentrations exceed any established exposure limits (see Section 8). Avoid contact with eyes, mouth, nose, hands/skin, and clothing. Wash thoroughly after handling. Wash contaminated clothing or shoes. Use good personal hygiene practices.</p> <p>Avoid systems that would tend to segregate dust or any components of this product. Avoid accumulation of fugitive dust, as high concentrations of sulfur dust may present an explosion hazard. Follow standard safe-work practices, including hot-work procedures when working around this product.</p>	
STORAGE:	Use and store this material in cool, dry, well-ventilated areas. Store only in approved containers. Keep container(s) tightly closed. Keep away from any incompatible material (see Section 10). Protect container(s) against physical damage. Material may absorb moisture from the air.	
SECTION 8		EXPOSURE CONTROLS / PERSONAL PROTECTION
ENGINEERING CONTROLS:	Use process enclosure, general dilution ventilation or local exhaust systems where necessary to maintain airborne dust concentration below the OSHA standards (see Section 8) or in accordance with applicable regulations.	
PERSONAL PROTECTIVE EQUIPMENT (PPE):	Eye/Face:	Approved eye/face protection to safeguard against potential eye contact, irritation or injury is advised. Eye protection that provides a seal to the skin around the eye is advised.
	Skin:	The use of cloth or leather work gloves is advised to prevent skin contact and irritation.
	Respiratory:	Use a dust mask or other appropriate respiratory protection where engineering controls are not feasible or during operations that generate airborne concentrations exceeding the relevant standards.
	Other:	A source of clean water should be available in the work area for flushing eyes and skin.
GENERAL HYGIENE CONSIDERATIONS:	Use in adequate ventilation. Wash thoroughly after handling.	

EXPOSURE GUIDELINES:	OSHA Permissible Exposure Limits (PEL):	Particulates Not Otherwise Specified (nos): 5 mg/m <sup>3</sup> TWA (respirable) 15 mg/m <sup>3</sup> TWA (total) Ammonia: 50 ppm (35 mg/m <sup>3</sup> ) TWA Fluorides, as F : 2.5 mg/m <sup>3</sup> TWA
	ACGIH Threshold Limit Value (TLV):	Particulates Not Otherwise Specified (nos): 3 mg/m <sup>3</sup> TWA (respirable) 10 mg/m <sup>3</sup> TWA (total) Ammonia: 25 ppm (18 mg/m <sup>3</sup> ) TWA 35 ppm (27 mg/m <sup>3</sup> ) STEL
<b>SECTION 9</b>		<b>PHYSICAL AND CHEMICAL PROPERTIES</b>
Note: Unless otherwise stated, values in this section are determined at 20°C (68°F) and 760 mm Hg (1 atm).		
Flash Point:	Not applicable	
Flammability/ Explosive Limits (%):	LEL: Not explosive (at product concentration) UEL: Not explosive (at product concentration)	
Auto-Ignition Temperature:	Not applicable	
Appearance:	Grey, tan, brown, or black granules	
Physical State:	Solid	
Odor:	Slight ammonia odor	
pH:	4.2-5.0 in a 1% solution.	
Vapor Pressure (mm Hg):	Not applicable	
Vapor Density (air=1):	Not applicable	
Boiling Point:	Not applicable	
Freezing/Melting Point:	Decomposes at 374°F (190 °C) before melting.	
Solubility in Water:	80% - 90%	
Specific Gravity:	Not applicable	
Volatility:	Not applicable	
Bulk Density:	56 - 66 lbs./ft3 (Packed); 54 – 61 lbs./ft3 (Loose)	
<b>SECTION 10</b>	<b>STABILITY AND REACTIVITY</b>	
Chemical Stability:	Stable under normal conditions of storage and handling. Decomposes at 374°F (190°C).	
Conditions to Avoid:	Extreme temperatures	
Incompatible Materials:	Avoid contact with alkaline materials	
Hazardous Decomposition Products:	If heated to the point of decomposition, oxides of phosphorus, nitrogen and/or sulfur (e.g., SO <sub>2</sub> ) may be released, as well may ammonia and fluoride vapor.	
Corrosiveness:	May be corrosive to iron and mild steels, aluminum, and copper.	
Hazardous Polymerization:	Will not occur.	

SECTION 11	TOXICOLOGICAL INFORMATION
Acute Oral Toxicity	Monoammonium Phosphate – LD50(rat) 5750 mg/kg bw Ammonium Sulfate – LD50(rat) = 3000 to 4250 mg/kg bw LD50(mouse) = 3040 mg/kg bw
Acute Inhalation Toxicity	Data not available for mixture or components
Acute Dermal Toxicity	Monoammonium Phosphate – LD50(rabbit) >7940 mg/kg bw Ammonium Sulfate – LD50(rat and mouse) >2000 mg/kg bw
Mutagenesis	Data not available for mixture or major component
Target Organ	Data not available for mixture or major component
Developmental Toxicity	Data not available for mixture. The available data for components are inadequate.
Carcinogenicity	The ingredient(s) of this product is (are) not classified as carcinogenic by NTP (National Toxicology Program), IARC, or OSHA
SECTION 12	ECOLOGICAL INFORMATION
ECOTOXICOLOGY:	This product is a concentrated source of nutrients that have been indicated (see Section 2) to impact vegetation and aquatic systems (particularly fresh). May release ammonium ions that are toxic to fish. Un-ionized ammonia concentrations above 0.02 mg/l are considered toxic (USA) in fresh water. May release phosphates which will result in algae growth, increased turbidity, and depleted oxygen. At extremely high concentrations, this may be hazardous to fish or other marine organisms. Release to watercourses may cause effects downstream.
SECTION 13	DISPOSAL CONSIDERATIONS
	It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities. Consult federal state/provincial and local regulations regarding the proper disposal of waste material that may incorporate some amount of this product.
SECTION 14	TRANSPORTATION INFORMATION
Regulatory Status	Not regulated
Proper Shipping Name	Not applicable
Hazard Class	Not listed in the hazardous materials shipping regulations (49 CFR, Table 172.101) by the U.S. Department of Transportation, or in the Transport of Dangerous Goods (TDG) Regulations Canada.
Packing Group	Not applicable
Identification Number	HTS (Harmonized Tariff Schedule) Code 3105.40.0050
Guide Number	Not applicable

MARPOL	<p>Based on the United Nations Globally Harmonized System for Classification and Labeling of Chemicals (UN GHS) this product is not harmful to the marine environment (non-HME) based on not exceeding the parameters or criteria below<sup>1</sup>:</p> <ul style="list-style-type: none"> <li>• Acute Aquatic Toxicity Category 1; and/or</li> <li>• Chronic Aquatic Toxicity Category 1 or 2; and/or</li> <li>• Carcinogenicity<sup>2</sup> Category 1A or 1B combined with not being rapidly degradable and having high bioaccumulation; and/or</li> <li>• Mutagenicity<sup>2</sup> Category 1A or 1B combined with not being rapidly degradable and having high bioaccumulation; and/or</li> <li>• Reproductive Toxicity<sup>2</sup> Category 1A or 1B combined with not being rapidly degradable and having high bioaccumulation; and/or</li> <li>• Specific Target Organ Toxicity Repeated Exposure<sup>2</sup> Category 1 combined with not being rapidly degradable and having high bioaccumulation; and/or</li> <li>• Solid bulk cargoes containing or consisting of synthetic polymers, rubber, plastics, or plastic feedstock pellets (this includes materials that are shredded, milled, chopped or macerated or similar materials).</li> </ul> <p>Notes:            1) The criteria are based on UN GHS, fourth revised edition (2011). For specific products (e.g. metals and inorganic metal compounds) guidance available in UN GHS, annexes 9 and 10 are essential for proper interpretation of the criteria and classification and should be followed.            2) Products that are classified for Carcinogenicity, Mutagenicity, reproductive toxicity or Specific Target Organ Toxicity Repeated Exposure for oral and dermal hazards or without specification of the exposure route in the hazard statement.</p>
<b>SECTION 15</b>	<b>REGULATORY INFORMATION</b>
FDA:	Phosphate compounds are Generally Recognized As Safe (GRAS) by the U.S. Food and Drug Administration (21 CFR 582.1141; Bhat and Ramaswamy 1993) which allows them to be used as food and color additives.
CERCLA:	Product is not listed with an RQ (reportable quantity)
RCRA 261.33:	Discarded commercial chemical products, off-specification species, container residues, and spill residues thereof are not listed as hazardous waste
SARA TITLE III: (Exemptions at 40 CFR, Part 370 may apply for agricultural use, or for quantities of less than 10,000 pounds on-site.)	SARA – 311/312: Solid; Immediate (acute): Yes (MAP); Chronic: No; Fire: No; Pressure: No; Reactivity: No
	SARA – 313: Not Listed
	SARA – 302/304:
NTP, IARC, OSHA:	This material has not been identified as a carcinogen by NTP, IARC, or OSHA.
Canada DSL and NDSL:	DSL: Yes NDSL: Not listed
TSCA:	Components are listed or exempt from being listed on the TSCA inventory.
CA Proposition 65: (Health & Safety Code Section 25249.5)	Warning: This product contains substances that are known to the State of California to cause cancer and/or reproductive harm.
WHMIS:	Not controlled
CBSA:	Canadian Border Services Agency- This product does not contain any bovine, ruminant or other animal by-products.

SECTION 16	OTHER INFORMATION
Disclaimer:	<p>The information in this document is believed to be correct as of the date issued.
