## **The Mosaic Company Honored 129 Local Contract Partners for Outstanding Safety Performance in 2015**

*Platinum, Gold, Silver and Bronze Awards were given out at the Ninth Annual Safety Recognition Luncheon*

Tampa, Fla., April 27, 2016 – [The Mosaic Company](http://www.mosaicco.com) (NYSE: MOS) honored 129 Florida contract partners for their exemplary safety records during the company's ninth annual Contractor Safety Recognition Luncheon on April 26, 2016 at Streamsong Resort in Polk County. Most of the contract partners honored are based in local counties where Mosaic operates: [Hillsborough](#), [Polk](#), [Hardee](#) and [Manatee](#).

As part of the company's relentless pursuit of an injury-free workplace, Mosaic tracks and reports employee and contractor safety performance, including the frequency of any injuries, which is factored into the overall company performance. The individual contractor organizations contributed to Mosaic achieving its safety performance targets in 2015.

"We always look forward to this annual luncheon where we honor our contract partners for sharing our strong safety culture consistently," said **Bo Davis**, Mosaic Senior Vice President – Phosphate Operations. "Once again, we recognized a growing number of exemplary contractors that not only meet our high standards, but have a shared commitment to the safety of our workforces."

In the past, contract partner companies were recognized in gold, silver or bronze categories for their excellence in safety leadership and performance during the past year. This year, Mosaic honored 16 companies with a new platinum award for sustaining the gold standard for five years consecutively. In order to receive a gold award the company must have met the standard for five or more consecutive years, and so the companies that first received gold in 2012 are the first eligible class of contract partners to receive the Platinum award in 2016.

Contractors eligible for recognition worked more than 2,000 on-site hours at a Mosaic facility during 2015 and met established criteria for safety performance — including no significant incidents or injuries that met or exceeded Mosaic targets, and reporting requirements.

Safety recognition was awarded to individual organizations according to the following:

- Platinum: met the criteria and sustained the gold standard for five or more consecutive years.
- Gold: met the criteria and sustained performance for five or more consecutive years.
- Silver: met the criteria and sustained performance for three or four consecutive years.
- Bronze: met the criteria and sustained performance for one or two consecutive years.
