

A top-down photograph of a white ceramic bowl filled with vegetable soup, including tomatoes, green onions, and leafy greens. The bowl sits on a rustic wooden table. To the left of the bowl are two slices of whole-grain bread. To the right is a silver spoon. The lighting is warm, highlighting the textures of the food and wood.

IMAGINE A WORLD WITH
HALF AS MUCH FOOD.

*Without crop nutrients, that
would be our reality.*

The work we do at Mosaic is critical to helping feed the world. We provide farmers with phosphate crop nutrients that enable them to produce more food on less land.

Essential crop nutrients — like phosphate mined and manufactured in Florida — are responsible for 40-60 percent of the crop yields farmers produce worldwide.* That translates into more abundant and affordable food here at home. As our world keeps growing, Mosaic keeps working to help put food on the table, for all of us.

We help the world grow the food it needs.
