

Safeguarding water resources is

our job

Devin Lawrence, Environmental Associate
South Pasture Mine, Hardee County

Being good stewards of local water sources is an important part of what we do at Mosaic. As a fifth-generation Floridian and an environmental associate for our phosphate operations, I'm part of a team that monitors water to ensure it meets Florida's water quality standards. In fact, we monitor and report on more than 30 water outfalls on our property as well as nearby creeks and streams. We take these responsibilities seriously – for our families as well as yours.

We help the world grow the food it needs.
