

Giving back to our
communities is

our job

Terry Lamy, Engineer
South Pasture Mine, Hardee County

As a local resident and engineer at Mosaic, I know that our employees are committed to the communities where we all live, work and play. From phosphate production to land reclamation, we work to be good stewards of our natural resources and community partnerships. That's why I am proud to see post-mined lands like Hardee Lakes Park being used for recreation, festivals and local events. At Mosaic, we know that giving our time and resources is a wise investment in the community – for our families as well as yours.

We help the world grow the food it needs.
